

THE
VETERINARY
ANESTHESIA
NERDS
FAVORITE
THINGS OF 2016

The following list is comprised of the Veterinary Anesthesia Nerd moderator's favorites things they have used. They are in no particular order. Enjoy!

1. **The Sentier Vetcorder** – Talk about handy! This handheld device can be clipped on to a post operative patient or used intra-op to monitor a patients SpO₂, ECG and PI. It can Bluetooth the vital to a large screen or phone so you can monitor a patient from a room away! <http://www.sentierconnect.com>

2. **The Masimo EMMA** – End tidal CO₂ is one of the most crucial parameters we monitor for our anesthetized animals. Having this parameter added to a multi-parameter monitor can be thousands of dollars. With the EMMA you get a portable, high functioning and durable monitor that can travel with the patient back to recovery until extubation. <http://www.masimo.com/capnography/emma-capnometer.htm>

3. **BSAVA Manual of Canine and Feline Anaesthesia and Analgesia Manual (3rd edition)** – This is a must for any DVM or Nurse. It is particularly useful for hopeful VTS's. <http://www.wiley.com/WileyCDA/WileyTitle/productCd-1905319614.html>

4. **Pain Management for Veterinary Technicians and Nurses** – This text from 2014 is still a must have for all techs, with easy to understand pharmacology, dosing and everything a tech needs to know about pain management. http://www.wiley.com/WileyCDA/Section/id-WILEY2_SEARCH_RESULT.html?query=pain%20management%20for%20veterinary%20nurses%20and%20technicians

5. **FIGS Medical Apparel** – If you want to look super cute at work this is the site for you! The scrubs for men and woman are fitted, but still practical. <https://www.wearfigs.com>

6. **Veterinary Anesthesia and Analgesia, 5th Edition of Lumb and Jones** – Need we say more? <http://www.wiley.com/WileyCDA/WileyTitle/productCd-1118526236.html>

7. **Compos X, Metran Ventilator** – This is one of the most intuitive ventilators to come out in a while. Easy setup and easy to train staff on. http://www.vasinc.net/Anesthesia_Equipment.html

8. **The LifeWindow by DigiCare** – This a workhorse of a unit. Each monitor can be customized or upgraded to your needs. What makes it even more exciting is its Masimo SpO₂ upgrade and wireless data transfer for EMR's. <http://www.digi-vet.com>

9. **The Hot Dog Patient Warming Unit** – We all know it is critical to keep our patients warm. This device is a safe and effective way to keep your patients warm during and after surgery. <http://vetwarming.com>

10. **Small Animal Regional Anesthesia and Analgesia** – This is a true must have for anyone wanting to provide excellent pain management. It has easy to follow chapters and pictures for all the latest techniques. <http://www.wiley.com/WileyCDA/WileyTitle/productCd-0813819946.html>
